## COE FINANCIAL QUESTIONNAIRE INSTRUCTIONS

Audited financial information is required when an institution applies for candidacy with the Commission AND thereafter on an annual basis throughout its candidate and accreditation status with the Commission. Financial information will also be required during the process of seeking initial accreditation, reaffirmation of accreditation, and as requested by the Commission. The submission of audited financial information **must be accompanied** by this completed questionnaire.

The Commission accepts only **audited** financial statements for the purpose of documenting compliance with its financial stability requirements. Reviewed or compiled financial statements will not be accepted as documentation of compliance with any Commission standard or policy.

The financial information submitted in this section will be used to review financial stability of the institution as required by Standard VII. In this regard, any items appearing anywhere on these financials that may indicate potential financial instability should be thoroughly explained in notes or separate attachments accompanying this form. Factors that may be considered indicators of financial stability include, but are not limited to:

- A composite score of 1.5 or greater for the two most recent fiscal years as disclosed on a composite score worksheet included in the audit report; and,
- No contingent liabilities or on-going litigation which could potentially affect the institution's ability to continue operation, including but not limited to, contingent liabilities, on-going litigation, or the financial stability of a parent corporation.

In preparation of this report, you should review the completed package and provide an explanation regarding any financial information which appears to indicate financial instability. This explanation should provide details as to why the information supplied should not be interpreted as indicating financial instability.

To comply with Commission requirements in Standard VII, financial statements must be prepared by an independent certified public accountant in accordance with Generally Accepted Accounting Principles (GAAP). In addition, the audit must be performed in accordance with Generally Accepted Government Auditing Standards (GAGAS).

Audited financial statements must include, at a minimum, the following information:

- (1) Accountant's report;
- (2) Balance sheet;
- (3) Income statement for each main campus and branch campus (if any) of the institution;
- (4) Statement of cash flow;
- (5) Composite score **(unrounded)** as disclosed on a composite score worksheet included in the audit report using the formula approved by the U.S. Department of Education prepared by an independent CPA;
- (6) Appropriate footnotes to the financial statements and other relevant disclosures; and,
- (7) **The name, licensing number, and licensing state of the CPA or firm responsible for preparing the audited financial statement.**

### IMPORTANT REMINDER

All non-public institutions must submit a copy of their CPA-prepared audited financial statement along with a copy of this questionnaire every year. Annual financial information is due in the COE office **no later than six months** following the date of the end of the institution's fiscal year. Penalties apply for failure to meet this deadline.

*Changes to this form from the last version are **highlighted**.*
