SUBSTANTIVE CHANGES: PROGRAMMATIC (Mode of Delivery)

Institutions that plan to offer programs via distance education delivery must first obtain approval for Institutional Distance Education. This approval indicates that the appropriate distance education infrastructure exists for successful administration of instruction via distance education delivery methods. Hybrid and Distance Education program approval must be obtained through submittal of a separate application. This may or may not be submitted simultaneously with the Institutional Distance Education Approval application. Hybrid programs make available less than 50% of the required instructional hours via distance education. Distance Education programs make available 50% or more of the required instructional hours via distance education.
