October 7, 2026

RE: Official Notification that the DROPPED FROM ACCREDITED STATUS issued to Georgia Career Institute (159700), 900 Flat Shoals Road, Conyers, GA 30094, effective September 11, 2026, has been changed to FINAL DROPPED FROM ACCREDITED STATUS while on SHOW CAUSE ORDER, by the Commission of the Council on Occupational Education, effective October 6, 2026.

The Commission of the Council on Occupational Education (COE) changed the accreditation status of the **Georgia Career Institute** (**GCI**) to Final Dropped from Accredited Status while on Show Cause Order Status, effective October 6, 2026. This action resulted from the institution's noncompliance with *Standard Seven: Financial Resources*, as its two most recent financial audits reported unrounded composite scores below the minimum required 1.500.

The institution did not submit a request for reconsideration within the agency's required 20-calendar day period. The institution also did not appeal the Commission's decision or submit written comments within the required 20-calendar-day period. However, it notified COE on September 28, 2026, of its intent to close, effective October 2, 2026. Accordingly, the Commission's decision to drop Georgia Career Institute from accredited status while under a Show Cause Order is final.
